

De Havilland Bowls Club

It may not come as a complete surprise to know that the at an EGM of the de Havilland Bowls Club yesterday evening we decided that it is not longer viable to sustain the Club. We will close at the end of this season.

All of the de Havilland members, I know, would have liked to continue to play at our green but with high running costs, no social facilities, very few numbers and our ambitious plans for growth this year (that we had agreed with the Herts Sports Partnership) no longer possible in the current health crisis, it became clear that we could not carry on.

We will over the next few months go through the process of closure and disposal of assets etc so for now please keep me on your circulation list. I will pass on relevant information. I am sure some of our Members will move to other Clubs next season.

Regards

Mike
