

CORONAVIRUS

Dear Exec and Club secretaries and other recipients.

Although we will almost certainly be discussing this at our next Exec meeting mid March, in advance of that I give you the following suggestions:

As a matter of hygiene and precaution that the customary pre and after match handshakes (and other physical salutations) are not observed for the time being.

If your club is holding an event that you have a signing in book at the door, so that all attendees can be traced should one of the attendees subsequently fall ill with the Virus.

Neither of these are panic measures but simple actions that could help slow down the outbreak or help if required in the current situation.

My thanks to both people who suggested these to me today.

Kind regards
Marcia Dunstone
